Thanks much for the update Susan. Given that it will be on hold, should we modify the contract for an extension? I believe that the end date was originally 10/31/17.

Thanks,

Hi Scott! I'm so sorry I didn't get back to you- things have been a whirlwind.

The CH proposal is on hold for a bit as we work on higher priority activities. I expect we will come back to it in the next year or so. I will keep you posted.

Thank you!

Susan

> Hi Susan,

I wanted to follow up with you regarding the status of the TX Hornshell Critical Habitat EA as it has been a while since we have communicated.

Hope you are well and thanks much,

Subject: Changes to hornshell EA

Hi Scott-

We've had to make some changes to the EA based on changes to our definition of occupied- we're no longer restricting it to a reproducing population. I've made most of the changes necessary, outside of the economic analysis section (need to wait on contractors to finish their changes).

However, as I was going through the document I noticed that the maps for the Pecos and Devils rivers both say subunit- instead, each are their own unit (no subunits). Can you make the changes, please? You can either send them to me separately or insert them in the document. Thanks!

I've attached the revised EA here for your information.
